

All the apps

Below you will find a list of helpful apps to download that will serve you in various ways out on the field.

Whatsapp : this app will be the most helpful in communicating with your squad and leadership as well as friends and family back home.

Venmo : this is the easiest way to send money back and forth between squadmates. However, this app must be downloaded and connected to your bank account while you are still in the states so make sure you set it up before leaving.

XE currency converter : this app will help you convert USD to the currency you are using in country so you can know how much you are spending on items.

Google translate : a must have for jumping over the language barrier.

Maps.me : helpful for downloading directions and using maps while offline.

PhotoCircle : a photo sharing app so you can share across the squad instead of sending pics back and forth in messaging apps!

Uber/Lift : these apps are used in several countries and can oftentimes be much cheaper than taxis

YouVersion Bible App : you can download entire translations so it can be accessed while offline!

Dwell: this app lets you listen to Scripture through daily listening plans, topical playlists, curated stories & passages, and more.
